

## **PB-MP1 Mini Pipe Camera System**

Featuring the *smallest CCD* diameter head available on the market today (Not to be confused with other CMOS sensor systems on the market), this compact system addresses new applications previously unheard of before. The image quality of CCD sensors is superior to that of CMOS and for the price, this system is unbeatable.

### **Mini CCD Pipecam System- from \$5490.**

- **13mm (0.55") diameter camera head with 60 ft. length of push cable**
- **3.5" TFT LCD Screen**
- **Super-bright white LED lighting**
- **Integrated compact cable reel**
- **AC/DC Operation with built in battery charger**
- **Video and Image Capture included**
- **Video output to computer, external recording devices, LCD Screens, DVD, etc.**
